

Summary of Revisions to the “Rules and Regulations for Composting
Facilities and Solid Waste Management Facilities”
September 2007

Solid Waste Regulation No. 1: “General Requirements”.

1. Clarification of the purpose for these regulations in Rule 1.1.01: Purpose.
2. Addition of the definition for “Construction and Demolition Debris Facility” in Rule 1.3.00: Definitions.
3. Addition of the definition for “Municipal Solid Waste” in Rule 1.3.00: Definitions.
4. Modification of the definition for “Composting Facility” in Rule 1.3.00: Definitions.
5. Modification of the definition for “Construction and Demolition Debris Processing Facility” in Rule 1.3.00: Definitions.
6. Modification of the definition for “Construction and Demolition Debris Separation Facility” in Rule 1.3.00: Definitions.
7. Modification of the definition for “Solid Waste Management Facility” in Rule 1.3.00: Definitions.
8. Addition of Rule 1.6.11 allowing municipalities to perform demonstration pilot projects to evaluate available technologies, equipment, or methodologies for managing solid waste.
9. Removal of Rule 1.13.04 requiring a fee to be paid on all commercial solid waste that is received for disposal at licensed solid waste management facilities.
10. Removal of Appendix B “Management of Dredged Materials for Land Disposal” from the Solid Waste Regulations since the Department promulgated separate Rules and Regulations for Dredging and the Management of Dredge Material in February 2003.

Solid Waste Regulation No. 3: “Transfer Stations and Collection Stations”.

1. Addition of Rule 3.2.08 requiring all transfer stations and collection stations that receive construction and demolition debris to have a combined license and/or

registration for a transfer station and a construction and demolition debris facility.

Solid Waste Regulation No. 7: “Construction and Demolition Debris Facilities”.

1. Modification of the title of Solid Waste Regulation No. 7 from “Facilities that Process Construction and Demolition Debris” to “Construction and Demolition Debris Facilities”.
2. Clarification of the requirements for Construction and Demolition Debris Facilities in Rule 7.1.01: General Information, paragraphs (a), (b), (c) and (f).
3. Clarification of the requirements for Construction and Demolition Debris Facilities in Rule 7.1.05: Operating Plan.
4. Clarification of the Operating Standards for Construction and Demolition Debris Facilities in Rule 7.2.01: General.
5. Clarification of the Operating Standards for Construction and Demolition Debris Facilities in Rule 7.2.04: Groundwater Monitoring Wells.
6. Clarification of the Operating Standards for Construction and Demolition Debris Facilities in Rule 7.2.06: Fire Protection.
7. Clarification of the Reuse, Sampling, and Testing Requirements for Construction and Demolition Debris in Rule 7.3.01 and Rule 7.3.03.
8. Clarification of the requirements for Construction and Demolition Debris Facilities in Rule 7.4.00: Applicability.
9. Revision of the License Exemption Form: Appendix A.
